EU ATEX Directive 2014/34/EU ATEX Declaration of Conformity Non Electrical Kinetrol Actuators Fitted to Valves (Actuated Valve)

Kinetrol declares that Actuated Valves, consisting of Kinetrol actuator with or without additional Kinetrol mechanical devices, either directly mounted or fitted via an ISO Adaptor or Bracket and Coupling to a ball, butterfly or Plug valve, conform to the relevant provisions of Directive 2014/34/EU as concluded from work within KTR 154 (Kinetrol Technical Dossier) so long as all Special Conditions for Safe Use as specified in KF743-4 are followed, and the working limits as stated on the Actuated Valve ATEX label are not exceeded.

Reference of other European Directives used, where appropriate:

Pressure Equipment Directive 97/23/EC
EU Machinery Directive 98/37/EC.

Standards used in this evaluation include:
BS EN ISO 80079-36:2016 & BS EN ISO 80079-37:2016

Quality Assurance Notification No: SIRA 02ATEXM166
